

# *Accident Prone*

During the course of the average adult's lifetime, it is likely that

he or she *Local Attorney* will be involved in an automobile collision.

While many of these occurrences are accidents, others result from the carelessness or recklessness of another driver.

In such cases, would you know what to do in order to protect yourself and your legal rights?

To begin with, it is necessary to call the police and establish a police report that accurately reflects your recollection of events.

It is also of great benefit to interview witnesses and get their comments and phone numbers.

If necessary, get any needed medical attention. In no case should a person involved in an accident admit wrongdoing or apologize amidst the strain.

If you or someone you know in the North Mississippi area is in need of representation or legal advice regarding an injury, I urge you to contact an experienced personal injury lawyer right away.

**REMEMBER:** At the scene of an accident, try to take notes, draw a map of the scene, and record the time and road conditions.
