

Eye Witness

In the event of an automobile accident, it is very important that

those involved get the names of eye witnesses to corroborate their accounts of what happened.

The willingness of an independent witness to give an account of what he or she saw can, many times, tip the scales in an accident victim's favor.

Beyond getting the names and addresses of as many witnesses as possible, it may also help to take down the license-plate numbers of vehicles in the area.

In some cases, the ability of an accident victim's attorney to track down a witness whose license plate was tied to the accident scene may spell the success of a personal injury case.

Without the witness, the case might otherwise be a matter of one word against another.

If you or someone you know in the North Mississippi area is in need of representation or legal advice regarding an injury, I urge you to contact an experienced personal injury lawyer right away.

REMEMBER: It is a good idea to carry a disposable camera in your glove compartment to document circumstances in the event that you are involved in an accident.
