In the event of a crash, an injured party is likely to be contacted by

an insurance company

claims adjuster representing the person likely to be held liable for the accident.

When this happens, accident victims should bear in mind that claims adjusters are professional negotiators whose job it is to settle the matter in the most favorable manner for their insurance company.

If you have been in an accident, never give an oral statement to the other party's insurance company.

No matter how tempted you may be to get into a discussion with the person representing the other side, you should resist the impulse.

Instead, consult with an attorney to put a professional on our side.

If you or someone you know in the North Mississippi area is in need of representation or legal advice regarding an injury, I urge you to contact an experienced personal injury lawyer right away.

REMEMBER: If you are involved in a crash, never be tempted by a dollar amount to settle. Your case may be worth more than you realize.
